EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Adam Masia on 6/23/2010.

The application has been amended as follows:

In claim 1, line 14 -- "and without said approval being communicated from the EFT controller to the game processor," -- has been inserted after -- "banking network" --.

In claim 14, line 20 -- "and without said response to the request being communicated from the first processor to the second processor." -- has been inserted after -- "the second processor" --.

In claim 17, line 19 -- "and without said response being communicated from the EFT control unit to the game processor." -- has been inserted after -- "the game processor" --.

In claim 26, line 11 -- "and without said response being communicated from the first processor to the second processor," -- has been inserted after -- "the second processor" --.

Claims 1-15, 17-22 & 24-29 are allowed.

The following is an examiner's statement of reasons for allowance:

The claims as currently amended are allowed because no references, or reasonable combination thereof could be found, which discloses, suggest or teach, the recited features of independent claims 1, 14, 17 & 26. For example, the prior art fails to disclose or teach, an EFT controller configured to operate to process an electronic fund transfer request by the player, the EFT system having a card reader configured to operate with the EFT controller, the EFT controller receives an approval for the electronic fund transfer request from a remote fund repository via a banking network and without said approval being communicated from the EFT controller to the game processor, the EFT controller sends data indicative of the approval to a gaming establishment network, external to the gaming device, the game processor receives the data of the approval from the gaming establishment network, as required by the independent claims 1, 14, 17 & 26.

The combination of Lucero (6,019,283) DeMar et al. (6,270,410) and Nguyen et al. (6,585,598) teaches of allowing players to participate in a game of chance at a casino or similar gaming establishments by using a general purpose charge card. However, the combination of Lucero, DeMar et al. and Nguyen et al., fails to teach each and every recited feature of the independent claims 1, 14, 17 & 26.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to SUNIT PANDYA whose telephone number is (571)272-2823. The examiner can normally be reached on M-Th 8 - 5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dmitry Suhol can be reached on 571-272-4430. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
